Originally published in 1989, "Reclaiming Reality" still provides the most accessible introduction to the increasingly influential multi-disciplinary and international body of thought, known as critical realism. It is designed to 'underlabour' both for the sciences, especially the human sciences, and for the projects of human emancipation which such sciences may come to inform; and provides an enlightening intervention in current debates about realism and relativism, positivism and poststructuralism, modernism and postmodernism, etc. Elaborating his critical realist perspective on society, nature, science and philosophy itself, Roy Bhaskar shows how this perspective can be used to undermine currently fashionable ideologies of the Right, and at the same time, to clear the ground for a reinvigorated Left. "Reclaiming Reality" contains powerful critiques of some of the most important schools of thought and thinkers of recent years - from Bachelard and Feyerabend to Rorty and Habermas; and it advances novel and convincing resolutions of many traditional philosophical problems. Now with a new introduction from Mervyn Hartwig, this book continues to provide a straightforward and stimulating introduction to current debates in philosophy and social theory for the interested lay reader and student alike. "Reclaiming Reality" will be of particular value not only for critical realists but for all those concerned with the revitalization of the socialist emancipatory project and the renaissance of the Marxist theoretical tradition.

### 评论

1. 最简单/概括的是Ch.9。2.

巴斯卡说最难的是Ch.4和6，但4其实是PON一书的一章基本上，6确实是难些，但确实很精彩。3. 跳过谈Rorty和Bachelard。4. 最启发的是“解释性批判”。5. 对positivism的讨论比PON一书更多。
