A kingdom fallen[a family torn apart]. Ripples are set in motion that will change their world forever. Destiny follows the path of Ayden, a young man who has been stung by the tragic death of the ones dearest to him. He is lost, without direction or meaning for his existence. But little does he know the strength inside him will determine the fate of the human race. What clouds circumstances even further is the mystery of a magical sword, and things left untold for too long. Evil ones seek possession of the sword, but do not know exactly where to find it. They rage a war, kindled by revenge, seeking redemption. If the weapon falls into the wrong hands, their power will be unimaginable. A new hero will emergebut will he be strong enough? Their world is about to change forever.
