Shoulder and Elbow Surgery-a title in the Operative Techniques series-offers you the step-by-step guidance you need-on SLAP reconstruction, total shoulder arthroplasty, humerus fractures, and more-from experts Donald Lee and Robert Neviaser. Perform all of the latest and best techniques in this specialty thanks to large, full-color

intraoperative photos, detailed illustrations, a dedicated website, and a companion DVD with procedural videos.

Access the fully searchable text online at [www.operativetechniques.com](http://www.operativetechniques.com), along with an image library, surgical videos, and reference links. Refine the quality of your technique and learn the expert's approach to getting the best results thanks to pearls and pitfalls and an emphasis on optimizing outcomes. Master every procedure with step-by-step instructions on positioning, exposures, instrumentation, and implants. Provide comprehensive care for your patients through discussions of post-operative care and expected outcomes, including potential complications and brief notes on controversies and supporting evidence. See every detail with clarity using color photos and illustrations that highlight key anatomies and diagrams that present cases as they appear in real life. Perfect your technique from watching procedural videos on the included DVD.

Build your skills by using the techniques used by the best!
