A Bible verse comes to mind ...a new opportunity presents itself ...a friend appears at just the right-time...the answer to a perplexing problem turns up in a dream...Is that God speaking? Can we hear Him? This book helps readers to understand the presence of God by learning how He communicates with people every day. Through moving true stories, inspiring Scripture and insightful commentary by Doug Hill this book examines the ways God speaks through new experiences, friends and strangers, dreams and visions and in such off-beat and ordinary ways like a children's story, a neon sign or even a jigsaw puzzle. Each chapter gives strength to faith and helps readers distinguish the voice of God from all the others.
