This accelerated starter program is designed for someone with little or no experience and will take from beginner to intermediate player. To guarantee that you will receive a complete and effective learning experience, we've packed this course with over 45 lessons, 2 instructional CDs and 24/7 online lesson support. Your lessons start with basics like tuning, proper hand position and understanding how to read chord and tablature charts. You quickly graduate to playing essential chords, an array of scales, finger picking and strum patterns. By the end of this course you will be having fun

playing the complete song rhythm exercises, and much more.
