Covering everything from day-to-day learning activities to schoolwide goals, this engaging book reviews key topics in literacy instruction for grades 5-12 and provides research-based recommendations for practice. Leading scholars present culturally responsive strategies for motivating adolescents; using multiple texts and digital media; integrating literacy instruction with science, social studies, and math; and teaching English language learners and struggling readers. Vivid case studies, thoughtful discussion questions and activities in each chapter, and detailed ideas for program and lesson planning make this an indispensable classroom resource and professional development tool.
