This third edition of "Taking Sides: Clashing Views on African Issues" presents current controversial issues in a debate-style format designed to stimulate student interest and develop critical thinking skills. Each issue is thoughtfully framed with an issue summary, an issue introduction, and a postscript. An instructor's manual with testing material is available for each volume. Using "Taking Side in the Classroom", ISBN 0073343900 is also an excellent instructor resource with practical suggestions on incorporating this effective approach in the classroom. Each "Taking Sides" reader features an annotated listing of selected World Wide Web sites and is supported by our student website.
