著者:Harrison C. White

出版者:Princeton University Press

出版时间:2008-6-1

装帧:Hardcover

isbn:9780691137148

In this completely revised edition of one of the foundational texts of network sociology, Harrison White refines and enlarges his groundbreaking theory of how social structure and culture emerge from the chaos and uncertainty of social life. Incorporating new contributions from a group of young sociologists and many fascinating and novel case studies, "Identity and Control" is the only major book of social theory that links social structure with the lived experience of individuals, providing a rich perspective on the kinds of social formations that develop in the process. Going beyond traditional sociological dichotomies such as agency/structure, individual/society, or micro/macro, "Identity and Control" presents a toolbox of concepts that will be useful to a wide range of social scientists, as well as those working in public policy, management, or associational life and, beyond, to any reader who is interested in understanding the dynamics of social life.
