Recognized as one of the most prestigious journals in medicine, Annals of Internal Medicine has published many papers that have significantly impacted (and continue to influence) medical practice and scientific research. Best of Annals presents a selection of 33 of these landmark papers, chosen by leading authorities from the most-cited articles published in the journal. Each article is introduced by commentary from a renowned expert who discusses the article's importance at the time it was published, how it shaped patient treatment or influenced medical practice, and how it continues to be significant today.
