September 11 and the subsequent War on Terror continues to cast a long shadow over the world. "Religion, Terror and Violence" brings together a group of distinguished scholars from a range of backgrounds and disciplines to explore the claim that acts of violence - most spectacularly the attack of September 11, 2001 and the international reaction to it - were intimately linked to cultural and social authorizing processes that could be called 'religious.' This book provides a nuanced but incisive insight into the reaction of the discipline of religious studies to the post 9/11 world.
