Covering cases from Addison's disease to osteoporosis and diabetic foot ulcer, and an introductory section explaining the molecular and physiological aspects of endocrinology, Endocrinology and Diabetes: Clinical Cases Uncovered has it all.

Reflecting the varied nature of the specialty, the cases cover various endocrine conditions and address the clinical presentation, diagnostic workup and potential complications, while the self-assessment section, comprising 30 MCQ, 10 SAQs and 10 EMQs, will help medical students, junior doctors, and nurses practise clinical reasoning and prepare for life on the wards.
