Written for sixth form and college students, "AS Law" provides a stimulating and

exciting approach to the subject for AQA and OCR students. Topics are broken down into manageable parts, with clear headings and are illustrated throughout with photographs, diagrams, boxes and illustrations. Each chapter in this book includes: An introduction outlining learning objectives which relate to the subject specifications; 'Developing the subject' sections explaining a particularly important or difficult point in more detail; a list of useful websites enabling students to access primary law materials intended to support chapter-by-chapter reading; 'It's a fact!' sections highlighting interesting and contemporary applications of the legal principle under discussion; dedicated sections providing detailed examination of key cases, within the context of the chapter discussion; and, hints and tips for revision topics and strategies helping students to prepare for the types of questions that are most likely to come up in exams. This book contains a wealth of opportunities to test and apply knowledge, with revision quizzes, quick tests and sample questions and answers within each chapter and there are additional opportunities for self-testing and revision available via the companion website. This book also helps students gain an understanding of the wider context of the subject, profiling famous legal figures and examining law in films, fiction, non-fiction and on the internet. This third edition has been revised and updated in the light of the new 2008 AQA specifications and contains a new chapter on contract liabilities, as well as expanded material on sentencing and court procedures.
