Maurice Merleau-Ponty (1908-1961) is one of the most important philosophers of the twentieth century. His theories of perception and the role of the body have had an enormous impact on the humanities and social sciences, yet the full scope of his contribution not only to phenomenology but philosophy generally is only now becoming clear. In this lucid and comprehensive introduction, Taylor Carman explains and assesses the full range of Merleau-Ponty's philosophy. "Merleau-Ponty" is essential reading for students of phenomenology, existentialism and Twentieth century philosophy. It is also ideal for anyone in the humanities and social sciences seeking an introduction to his work.
