This book collects and introduces some of the best and most useful work in practical

lexicography. It has been designed as a resource for students and scholars of lexicography and lexicology and to be an essential reference for professional lexicographers. It focusses on central issues in the field and covers topics hotly debated in lexicography circles. After a full contextual introduction Thierry Fontenelle divides the book into twelve parts - theoretical perspectives, corpus design, lexicographical evidence, word senses and polysemy, collocations and idioms, definitions, examples, grammar and usage, bilingual lexicography, tools and methods, semantic networks, and how dictionaries are used. The book is fully referenced and indexed. The reader may be used independently for reference or as reading material for a course of study. It is an essential companion for The Oxford Guide to Practical Lexicography by Sue Atkins and Michael Rundell, published by OUP in 2008.

评论

名家荟萃！按照不同的方面汇聚了近三十年最重要的词典学论文（除了开篇的《英语词典编纂计划》），值得细读。令人注意的是阿特金斯和帕特里克·汉克斯都选了两篇，这会不会代表了编者的某些倾向性？
