The Xiamen Academy of International Law aims to promote academic exchanges among legal communities across the globe, encourage examination of major international issues and, by so doing, seek ways to improve the possibilities for world peace and international cooperation. It seeks to achieve this aim by providing the highest level of education to individuals, particularly those from Asian countries, interested in the development and use of international law - persons such as young lecturers in international law, diplomats, practitioners of transnational law, government officials in charge of foreign affairs, and officials of international organizations. The Program of Summer Courses it offers has been designed to be both practical and highly scholarly. These Courses are given in English or French, and are taught by highly qualified legal professionals. They are published in the "Collected Courses" of the Xiamen Academy of International Law.
