CREATE BREAKTHROUGHS . "RIGHT" YOUR LIFE AS YOU "WRITE" YOUR LIFE Ever wonder where do the days go? Time passes leaving us in a blur of activities,

responsibilities, commitments and experiences. We are left breathless, overwhelmed and defeated. Sometimes we are even exhilarated, motivated and feel invincible. What could you accomplish if you filtered the daily deluge of events, feelings and outcomes that affect your life and apply the information to your advantage? You would reach much greater success if you could clearly understand the "lesson in the experience"? Why live a life of "unconscious incompetence" instead of gaining the focus and insights needed to achieve abundance and joy? "Journals are tools to help you discover the wisdom you already possess." This wisdom will surprise and challenge you since it always comes directly from you. It affirms self-trust, that you have deep-seated knowledge and know more than you think you do. This journal will allow you to capture the critical D.A.T.A. required to overcome your limitations and replace them with life-changing breakthroughs for greater clarity, vitality and worth. Understand your purpose. Believe in your dreams. Crave the ability to achieve your goals. Purchase this book and see the results
