For paralegal courses in Contract Law. Written from the paralegal's perspective, this book examines the ethical, practical and professional topics relating to Contract Law and combines both substantive material and contemporary cases. Offering

exceptional coverage of e-contracts and technology, it emphasizes contract law as an important core competency for all paralegals. Each chapter is infused with application-oriented features that range from scenarios to feature articles to portfolio-building exercises. End-of-chapter material focuses on reinforcing skills through internet exercises, case questions and case-briefing assignments. Throughout the book, each chapter shows how paralegals work with contracts and why it is important for all paralegals to understand contract law.
