Ancient civilizations, mysterious legends, dream travel, and worlds beyond normal view all form the backdrop for this inspired and otherworldly exploration of love, friendship, and the magic of the dream world. Braumaru, the first book in the Behold the Eye trilogy, tells an enchanting and inspirational story that reaches beyond the familiar boundaries of ordinary imagination into an extraordinary realm where the impossible is possible and where anything can happen; and often does. Dream-like in its unfolding, vivid in its suspense, and thrilling in its action; this story is a passionate tale of hope and optimism. Ages 9 and up.
