出版时间:2008-10-1

装帧:Hardcover

isbn:9780335217830

This text covers an extensive amount of material in a five fold plan including: ongoing

exercises of increasing difficulty to illustrate the text material; highlighting essential critical thinking skills, eg: sorting extensive amounts of material; coverage of both Quant and Qual research methods; explanations of the limitations and ambiguity of research findings and how to deal with that; and, explanations on how to critique and interpret already published research.
