For 23 years and through four editions, "Urban Pest Management in Australia" has been the major reference work for Australian pest control operators. This fifth edition has been extensively revised to support the constantly evolving pest management

industry. It features an accessible new format, fully updated chapters, additional color plates and extra content, including a new section on putting pest control into practice. Jon Staunton draws on his 50 years of industry knowledge to bring Gerozisis and Hadlington's pest management 'bible' to a new generation of technicians.
