Gallery i8 is Iceland's most prominent gallery of modern art. Now, on the occasion of its eleventh birthday, the contributors to this volume reflect on the path travelled. This retrospective consists partly of commentaries from Eva Heisler, Halldor Bjorn Runolfsson, Gudbergur Bergsson and Sigurdur Gudmundsson. Also included is a

selection from the gallery archives that paints a coherent picture of the body of works exhibited over the years. Put together, these sections clearly portray the results of pioneering work that i8 has done in the past decade.
