With the U.S. economy booming under President Bill Clinton and the cold war finally over, many Americans experienced peace and prosperity in the nineties. Digital technologies gained popularity, with nearly one billion people online by the end of the decade. The film industry wondered what the effect on cinema would be.

The essays in American Cinema of the 1990s examine the big-budget blockbusters and critically acclaimed independent films that defined the decade. The 1990s' most popular genre, action, channeled anxieties about global threats such as AIDS and foreign terrorist attacks into escapist entertainment movies.
