Tourism in Southeast Asia provides an up-to-date exploration of the state of tourism development and associated issues in one of the world's most dynamic tourism destinations. The volume takes a close look at many of the challenges facing Southeast Asian tourism at a critical stage of transition and transformation and following a recent series of crises and disasters. Building on and advancing the path-breaking Tourism in South-East Asia, produced by the same editors in 1993, it adopts a multidisciplinary approach and includes contributions from some of the leading researchers on tourism in Southeast Asia, presenting a number of fresh perspectives.
