This annual guide covers all the football grounds in the Premier and Championship Leagues in England and Wales. Now with a brand new look, and completely revised

and updated information, this brilliant guide will be even more indispensable for fans travelling to away matches and ideal for armchair enthusiasts. The book includes an aerial photo-map of each ground allowing readers to locate the stadium in relation to the surrounding area and also has invaluable information on public transport facilities, where to park and much else. The 16th edition again includes updated plans of each ground identifying blocks and disabled facilities and also provides a brief sketch of each club's season. As well as providing information on new stadia, the Aerofilms Guide also records work and improvements which have been made at existing grounds around the country and, as always, reflects the fact that each year two familiar names disappear from the Guide as two clubs are relegated from League Two to be replaced by two promoted from the Nationwide Conference.
