In the fall of 1960, Douglas Bragg decided to take a trip through the South with no particular destination in mind. And so the journey begins for the young hero of legendary writer Madison Jones's newest novel, *The Adventures of Douglas Bragg*. Leaving his native Birmingham to see a world more interesting than his own, "college man" Bragg sets out on his hitchhiking trip. Before long, he is picked up by a salesman who seems normal enough--that is, until Bragg meets the salesman's mother. This sets off a series of events that alternates between the utterly ridiculous and the potentially disastrous. On his journey, Bragg encounters a rogue's gallery of bizarre and often unsavory characters. There's Bo, the odious pig farmer; J.T., his delusional country-star-wannabe son; Buster Bell, a washed-up Nashville musician better known for his outrageous house parties than for his music; and Mr. L. J. Hibbs, full-time funeral director--and part-time drug-dealer. Bragg himself comes off as no angel; he is a rogue in the truest sense of the word. A habitual liar and shameless trickster, he often uses his talent for duplicity to extricate himself from the most desperate situations. And yet, he is not a true reprobate, finally showing that underneath he does in fact have a conscience. Jones's novel is a true example of southern picaresque that combines gentle satire and wicked humor. The episodes in this light-hearted tale of a conniving, but nevertheless lovable, traveler never quite turn out the way you would expect.
