"Landscape Architectural Graphic Standards" is an entirely new, definitive reference

work for everyone involved with landscape architecture, design, and construction. Based on the 70-year success of "Architectural Graphic Standards", this new book is destined to become the "bible" for the landscape field. Edited by an educator and former president of the American Society of Landscape Architects, it provides immediate access to rules-of-thumb and standards used throughout the planning, design, construction and management of landscapes.
