Stalking has moved from being a novel area for study to become a core area of concern for mental health professionals, lawyers and other members of the criminal justice system. It has emerged as a significant social problem which not only commands considerable public attention but is now, in many jurisdictions, a specific form of criminal offence. This new edition brings the reader completely up-to-date with the explosion in published research and clinical studies in the field, and covers new issues such as cyberstalking, stalking health professionals, stalking in the workplace, female stalkers, juvenile stalkers, stalking celebrities, evaluating risk in the stalking situation, as well as exploring changes to the legal status of the behaviour. Illustrated with case studies throughout, this is the definitive guide and reference for anyone with professional, academic or other interests in this complex behaviour.

结构明确，定义清晰。书的结构框架可以用于学习分析很多其他的犯罪行为。适当体位时把重要的知识点重复，让学习更佳的轻松！但是能不能不要用那么多双重否定的表达方式啊！读到最后好想发火！
