The newly revised, comprehensive, four-color Atlas of Clinical Neurology is extensively updated with reference to current literature. The new third edition organizes the highest-quality images from the field of clinical neurology, including clinical syndromes, for neurologists and clinicians. The atlas highlights the enormous strides

being made in the biologic understanding of neurologic disease, covering developmental and genetic diseases, neuroendocrine disorders, critical care neurology, cerebrovascular disease, dementias, behavioral neurology, neuro-oncology, movement disorders, epilepsy, neuromuscular diseases, infectious diseases, neuroimmunology, neurotoxic disorders, and headache. This indispensable collection contains over 1300 images including algorithms, tables, charts, and schematic drawings.
