Motivated people advance further and faster in their careers, earn more money, are more productive, experience more satisfying relationships and are happier than the less- motivated people around them. But true motivation cannot be faked or forced.

In the same way that each person has a different fingerprint and a distinct combination of DNA, every individual is hardwired with a unique motivational matrix. Grounded in eight years of research with more than 100,000 people, this book reveals how to decode your Motivational DNA for maximum achievement.

Whether you are an individual seeking to realize your personal goals or a leader looking to motivate your team, Get Motivated! will show you how to overcome any obstacle, achieve any goal, and accelerate your success.
