出版者:Prometheus Books

出版时间:1995-10

装帧:Audio Cassette

isbn:9781573920292

Gullible is, as his name suggests, an easy target for his adversary, Invalid Argument. Like all of us, Gullible has his strengths and weaknesses. He is likeable, amusing, open-hearted, innocent, and naive. But when his emotions are aroused, he doesn't reason very well. In this delightful adventure story, he encounters such sordid characters as "Betty Bias", "Peter Prejudice", "Ad Hominem", "Teddy Tangletongue", "Senator Demagogue", "Irving Ego", and "Hal Hatred". Fortunately for Gullible, his plight is observed by a Wise Man, who introduces him to some basic principles of the art of Logical Reasoning.
