Timed for the centennial of Alfred Schutz (1899-1999), this set of original essays documents the continuing relevance of his thought in economics, geography, sociology, philosophy, and political science, and indicates the continuing interest in his thought in East Asia, Western Europe, and North America. The authors of these essays are leading authorities in their countries and disciplines. Schutz is the pre-eminent phenomenological philosopher of the social sciences. New materials from his Nachlass concerning barriers to equality of opportunity, including a report co-authored with the political scientist Harold Lasswell are also included.
