出版时间:1994-02

装帧:Paperback

isbn:9780822314875

This collection celebrates the resurgence of Native Americans within the cultural landscape of the United States. During the past quarter century, the Native American population in the United States has seen an astonishing demographic growth reaching beyond all biological probability as increasing numbers of Americans desire to admit or to claim Native American ancestry. This volume illustrates a unique moment in history, as unprecedented numbers of Native Americans seek to create a powerful, flexible sense of cultural identity.

Diverse commentators, including literary critics, anthropologists, ethnohistorians, poets and a novelist address persistent issues facing Native Americans and Native American studies today. The future of White-Indian relation, the viability of Pan-Indianism, tensions between Native Americans and North American anthropologists, and new developments in ethnohistory are among the topics discussed. The survival of Native Americans as recorded in this collection, an expanded edition of a special issue of "boundary 2," brings into focus the dynamically adaptive values of Native American culture. Native Americans' persistence in U.S. culture--not disappearing under the pressure to assimilate or through genocidal warfare--reminds us of the extent to which any living culture is defined by the process of transformation. "Contributors." Linda Ainsworth, Jonathan Boyarin, Raymond J. DeMallie, Elaine Jahner, Karl Kroeber, William Overstreet, Douglas R. Parks, Katharine Pearce, Jarold Ramsey, Wendy Rose, Edward H. Spicer, Gerald Vizenor, Priscilla Wald
