Taking a shortcut home — late in the middle of the night, and just by happenstance coming across two hot, hunky, well built police officers — and one being a very big strong black officer, hiding out and doing things to — and with, each other — can certainly make a man decide that his life is not just quite right, and maybe some changes need to be made! “The big black officer had ahold of his crotch, and the white guy didn’ t push him back or make him move his hand or anything!” Troy truly had a lot to learn and experience, and then move into a totally different way of living — “— and I think it’ s time to poke it full with my ‘big, black, bull, officer’ s cock’ — as it’ s often referred to.”
