出版者:Wadsworth Publishing

出版时间:2001-07-18

装帧:Paperback

isbn:9780534267391

This supplement supports the development of critical thinking skills necessary to succeed in the introductory psychology course. In the first chapter, the author identifies seven characteristics of critical thinkers, and in the following chapters he dissects a challenging issue in the discipline and models critical thinking for the reader. Each chapter concludes with an analysis of the process, exercises, and extensive references.
