This volume brings together a wide-ranging collection of the papers written by Jeremy Waldron, one of the most internationally respected political theorists writing today. The main focus of the collection is on substantive issues in modern political philosophy. The first six chapters deal with freedom, toleration and neutrality and argue for a robust conception of liberty. Waldron defends the idea that people have a right to act in ways others disapprove of, and that the state should be neutral vis-a-vis religious and ethical systems. The chapters that follow are concerned with socio-economic rights. Waldron argues that poverty and homelessness are not to be understood apart from the value of freedom. On the contrary our moral response to them should be based on the same values that underlie traditional liberal philosophy.

为了写论文而刷书效率果然高。在新制度学派和Lefebvre之间纠结了几周之后，终于在这儿找到了一条更对我胃口的调和的路径。另外书里时不时出现的罗尔斯和德沃金，当然还有（作为批评者的）诺齐克，也燃起了我接着读他们的热情。

总体上，前半部分关于第一代权利的文章比后半部分第二三代权利的文章要好，这可能是自由主义的话语更容易说明前者。
