For MBA courses in International Corporate Finance, International Business Finance,

and Multinational Financial Management. This book focuses upon the basic principles which together make a "toolkit" for analysis of issues in international finance. It also captures the importance and excitement of international financial management and highlights the new approaches in the field. It covers the theoretical foundations of international financial decisions and contains extensive applications of the theory to financial practice with a main objective of developing critical thinking skills regarding the theory and practice of international financial management.
