"America Besieged" deals with the underlying forces within U.S. society that deeply affect our lives. Showing how we are being misled and harmed by those who profess to have our interests at heart, Michael Parenti writes: "We are indeed a nation besieged, not from without but from within, not subverted from below but from above; the moneyed power exercises a near monopoly influence over our political life, over the economy, the state, and the media. Some Americans are astonished to hear of it. Others have had their suspicions, although they may not be quite sure how it all adds up. This book invites the reader to stop blaming the powerless and poor and, in that good old American phrase, start 'following the money.' That is the first and most important step toward lifting the siege and bringing democracy back to life." Michael Parenti, one of America's most astute and entertaining political analysts, is the author of Against Empire, Dirty Truths, Blackshirts and Reds: Rational Fascism and the Overthrow of Communism, Democracy for the Few, Land of Idols: Political Mythology in America, and many other books.
