

# Mac OS X

[Mac OS X 下载链接1](#)

著者:David Pogue

出版者:Pogue Press

出版时间:2002-10

装帧:Paperback

isbn:9780596004507

This updated edition details the many changes in OS X 10.2. Pogue includes new chapters on iChat (Apple's AOL-compatible instant-messaging software), Sherlock 3 (the Web search tool that pulls critical Web information directly onto the desktop), and the new Finder (which reintroduces - spring-loaded - folders by popular request). With the humour and technical insight characteristic of the "Missing Manual" series, the book also delves into features under the hood, such as the networking tools that allow Macs and PCs to swap files on a network.
