The influence of the apostle Paul in early Christianity goes far beyond the reach of the seven genuine letters he wrote to early assemblies; Paul was revered and fiercely opposed in an even larger number of letters penned in his name, and in narratives told about him and against him, that were included in our New Testament and, far more often, treasured and circulated outside it. Richard Pervo provides an illuminating and comprehensive survey of the legacy of Paul and the various ways he was remembered, honored, and vilified in the early churches.

作者介绍:

Richard I. Pervo has taught New Testament at Seabury-Western Theological Seminary and the University of Minnesota and is the author of numerous books in New Testament studies, including *Acts* (Hermeneia, Fortress, 2008).
