Amsterdam is a city of surprising beauty. A stroll along the western canals, through the lanes of the Jordaan or beneath the greenery of the Plantage can lead straight into a trance. As can a visit to a magnificent museum or an infamous coffeeshop. Be enchanted. With pull-out map; Three authors, over 700 recommendations, five neighbourhood walks; Colour Architecture chapter on the city's buildings, old and new; Comprehensive Day Trips chapter includes Leiden, Utrecht and Haarlem; New index of sustainable travel listings.
