出版者:Lippincott Williams & Wilkins

出版时间:2009-11-03

装帧:Paperback

isbn:9780781798396

Ideally suited for students in critical care rotations and residents, this concise, practical

handbook presents the essentials of medical and surgical critical care in an easy-to-read format. The authors succinctly explain the pathophysiology underlying clinical disorders and the key principles of diagnosis and patient management, emphasizing cost-effective approaches. The Fourth Edition includes Controversies in Critical Care boxes in many chapters, which briefly summarize opposing arguments on controversial points. Other highlights include enhanced discussion of CT for abdominal disorders, new ACLS guidelines, and new material on removable IVC filters, interventional radiologic techniques for GI bleeding, and use of vascular ultrasound.

作者介绍:

Author John J Marini MD

Director of Physiological and Translational Research, HealthPartners Research Foundation; Professor of Medicine, University of Minnesota, Minneapolis/St. Paul, MN

Author Arthur P Wheeler MD

Director, Medical Intensive Care Unit, Associate Professor of Medicine, Division of Allergy, Pulmonary and Critical Care, Vanderbilt University, Nashville, TN

目录: Table Of Contents

Section I: TECHNIQUES AND METHODS IN CRITICAL CARE

- 1: Hemodynamics
- 2: Hemodynamic Monitoring
- 3: Support of the Failing Circulation
- 4: Arrhythmias, Pacing, and Cardioversion
- 5: Respiratory Monitoring
- 6: Airway Intubation
- 7: Indications and Options for Mechanical Ventilation
- 8: Practical Problems and Complications of Mechanical Ventilation
- 9: Positive End-Expiratory and Continuous Positive Airway Pressure
- 10: Weaning and Discontinuation of Mechanical Ventilation
- 11: Intensive Care Unit Imaging
- 12: Acid-Base Disorders
- 13: Fluid and Electrolyte Disorders
- 14: Blood Conservation and Transfusion
- 15: Pharmacotherapy
- 16: Nutritional Assessment and Support
- 17: Analgesia, Sedation, and Therapeutic Paralysis
- 18: General Supportive Care
- 19: Quality Improvement and Cost Control

Section II: MEDICAL AND SURGICAL CRISES

- 20: Cardiopulmonary Arrest
- 21: Acute Coronary Syndromes
- 22: Hypertensive Emergencies
- 23: Venous Thromboembolism
- 24: Oxygenation Failure, ARDS, and Acute Lung Injury
- 25: Ventilatory Failure
- 26: ICU Infections
- 27: Severe Sepsis
- 28: Thermal Disorders

- 29: Acute Kidney Injury and Renal Replacement Therapy
- 30: Clotting and Bleeding Disorders and Anticoagulation Therapy
- 31: Hepatic Failure
- 32: Endocrine Emergencies
- 33: Drug Overdose and Poisoning
- 34: Neurological Emergencies
- 35: Chest Trauma
- 36: Acute Abdomen
- 37: Gastrointestinal Bleeding
- 38: Burns and Inhalational Injury
