出版时间:2010-3-12

装帧:Paperback

isbn:9781849202923

"McQuail's Mass Communication Theory" has been the benchmark for studying mass communication theory for more than 25 years. It remains the most authoritative and comprehensive introduction to the field and still offers unmatched coverage of the research literature. The Sixth Edition of this bestselling textbook covers everything a

student needs to know of mass communication: communication models of the sender, the message and the audience and the diverse forms of mass communication today, including television, radio, newspapers, film, music, the internet and other forms of new media. This book proves that more than ever, theories of mass communication matter for the broader understanding of society and culture. Fully up-to-date, this new edition includes: New boxed case studies on key research publications, familiarizing students with the critical research texts in the field; a new streamlined structure for better navigation; more definitions, examples, and illustrations throughout to bring abstract concepts to life; and major updates on new media, globalization, work and economy. "McQuail's Mass Communication Theory" is the indispensable resource no student of media studies can afford to be without.

权威是必然的，但是对此类话题终究无感。。。

第六版威武！保佑保佑！拜一个！

希望现在谁问我传播学到底读什么，我能给你说上一二了。

马奎你好，马奎再见。

我竟然。。。真的从头到尾读完了。教科书，必须要读，总体来说写的很清楚，但还是有些地方写的太绕。不过还是一本不错的入门书啦，最新一个版本写的还挺update的，就是关于网络媒体一块还是有点落后的。

每週都讀得滿地打滾想死……
