This survey of Italian Renaissance art, from a new and different perspective, shows how art was a vital part of society and how all types of art and artists reflected the needs and aspirations of the culture from which they arose. Most books on Renaissance art

are based on a chronological study of the major artists and their works. In this book, Bruce Cole covers the major types of art from c. 1250 to c. 1550, discusses their origins and development, documents their use and function, and describes their form and how and why the artists shaped them that way. Art is thus firmly connected with the life and society of the Renaissance rather than viewed as a separate entity: painting and sculpture are seen in their proper context.
