The first-ever guided journal for pot smokers! "How High Am I?" is perfect for recording and remembering the 'highs' of your life. No matter the method or reason (recreational /medicinal/spiritual) for pot consumption, sometimes it is hard to keep track of the

ever-fleeting thoughts, genius ideas, and big questions that arise when flying high. With room to doodle and jot down notes about the various aspects of your 'trip,' this journal provides fun and focus.
