Hell's Toilet take you first-hand through Tom Meersman's battle with ulcerative colitis. In his own words, Tom goes through the debilitating, depressing, scary, and embarrassing moments that come with suffering from an incurable chronic disease. From a perfectly healthy young man fresh out of college, to one fighting for his health less than a year later, Hell's Toilet walks you through Tom's journey every step of the way. It follows Tom's every emotion from initial diagnosis, to overcoming severe depression, to admitting to himself that losing his colon was his only option. Hell's Toilet is a remarkable, emotional ride that leads to inspiration by showing exactly how much the human spirit can overcome.
