The Foundations of Economics by Bade/Parkin, fifth edition shines with a well-targeted content adjustment making it one of the most relevant and up-to-date

Principles of Economics texts on the market today. In-text examples, dynamic chapter openers, and applications contain compelling content and real-world issues. We elevated MyEconLab (MEL) and integrated the story to ensure that it is a more visual feature. This edition capitalizes on the seamless connection between the text and the e-environment to highlight how the authors' emphasis on continuous practice is integrated throughout the entire Bade/Parkin learning system. The fifth edition MyEconLab course and the accompanying print supplements were written in tandem with the textbook.
