This cool trifold format is packed with laughs! Jamie Kelly brings DDD fans a school planner with two sheets of stickers, a pen, and three interactive books: Glamorously Important Notes, All About Me, and Addresses of People I Don't Hate (Mostly). Complete with fill-ins, prompts, extra places to jot down assignments, and some brand-new full color art, this is one school planner everyone will want! After all, PLANNING to put something off until the day before it's due is a totally legitimate kind of planning.
