著者:Per Jensen

出版者:Wiley

出版时间:2000-10-18

装帧:Hardcover

isbn:9780471489986

This book describes the use of modern computational methods in predicting high resolution molecular spectra, which allows the experimental spectroscopist to interpret and assign real spectra. aeo Offers a comprehensive treatment of modern computation techniques. aeo Provides a collection of material from different areas of theoretical chemistry and physics. aeo Bridges the gap between traditional quantum chemistry and experimental molecular spectroscopy.
