Construction Methods and Management, 8/e, is designed to guide construction engineers and managers in planning, estimating, and directing construction

operations safely and effectively. Comprehensive and up-to-date, the text integrates major construction management topics with an explanation of the methods of heavy/highway and building construction. It incorporates both customary U.S. units and metric (SI) units and is the only text to present concrete formwork design equations and procedures using both measurement systems. This edition features information on the latest developments in soil excavation, asphalt paving, and earthmoving equipment. Plus! A companion student website, "MyConstructionKit", is now available! MyConstructionKit is an online resource that offers a wealth of study tools to engage students. Key features include: \* Chapter Outline \* Key Terms\* Glossary\* Image Bank\* Electronic Flashcards\* Web Links \* Chapter Review Questions with Gradebook \* Animations
