Let's-Read-and-Find-Out about Polar Bears The Arctic might be a bit too chilly for you or me to live there, but it is the perfect home for polar bears. The fur between the pads of their paws keeps them from slipping on the ice. Their skin and blubber are like a warm blanket. But the earth is getting warmer and the ice is melting. Where will the polar bears live? How can we help protect their home? Read and find out!
